

## EE422C Project 5 Team Plan

Hamza Khatri – hak533, 16220

Mohammad Kedwail – mak3799, 16238

Git URL: [https://github.com/hamzacooly/EE422C\\_Project5](https://github.com/hamzacooly/EE422C_Project5)

For this project, Mohammad designed the GUI and updated `displayWorld` by adding a method to create a `Canvas` object. Hamza set up the `Controller` class, which contained the `EventHandlers` for the different UI objects, set up the `AnimationTimer`, and implemented `runStats`. Both updated the individual `Critter` classes to have their own shapes and use the `look` function.
